

# HTML 5

Marinos Bernitsas

**What is our favorite  
web application in  
Internet Technologies?**

**Mashups**

# How to make Mashups

better? Download .html

- Drag and Drop feeds
- Copy Page in Real Time
- Smooth Transitions
- Rounded Corners
- Shadows
- Run Online
- Save Feeds
- Alternate Row Colors
- Run without Server

Server-Side  
CSS Class

Print Feeds

Desktop  
Application

Photoshop

jQuery

jQuery UI

**HTML5 = HTML5 + JS API + CSS3**

# Overview

Canvas and Native SVG

Native Video and Audio Playback

# Drag & Drop

```
<div id="toDrag" draggable="true">This is draggable</div>
```

```
addEventListener(drop, 'dragover', function (e) {  
  if (e.preventDefault) e.preventDefault(); // allows us to drop  
  this.className = 'over';  
  e.dataTransfer.dropEffect = 'copy';  
  return false;  
});
```

```
});
```

```
addEventListener(drop, 'dragleave', function () {  
  this.className = '';  
});
```

```
});
```

# Drag & Drop

```
addEvent(drop, 'drop', function (e) {  
    if (e.preventDefault) e.preventDefault();  
    var li = document.createElement('li');  
  
    //grab the url for images etc  
    var feed=feed=e.dataTransfer.getData('url');  
  
    //grab the pure text  
    if(!feed) feed=e.dataTransfer.getData('Text');  
    drop.className = '';  
  
    li.innerHTML = feed;  
  
});
```

```
});
```

# HTML5Mashups

*Demo*

[bit.ly/html5mashups](http://bit.ly/html5mashups)

iPhone App

# CSS3

- Shadows
- Rounded Corners (border-radius)
- Hover
- first-child
- even/odd formatting
- Smooth transitions
  - On dragover
  - On hover

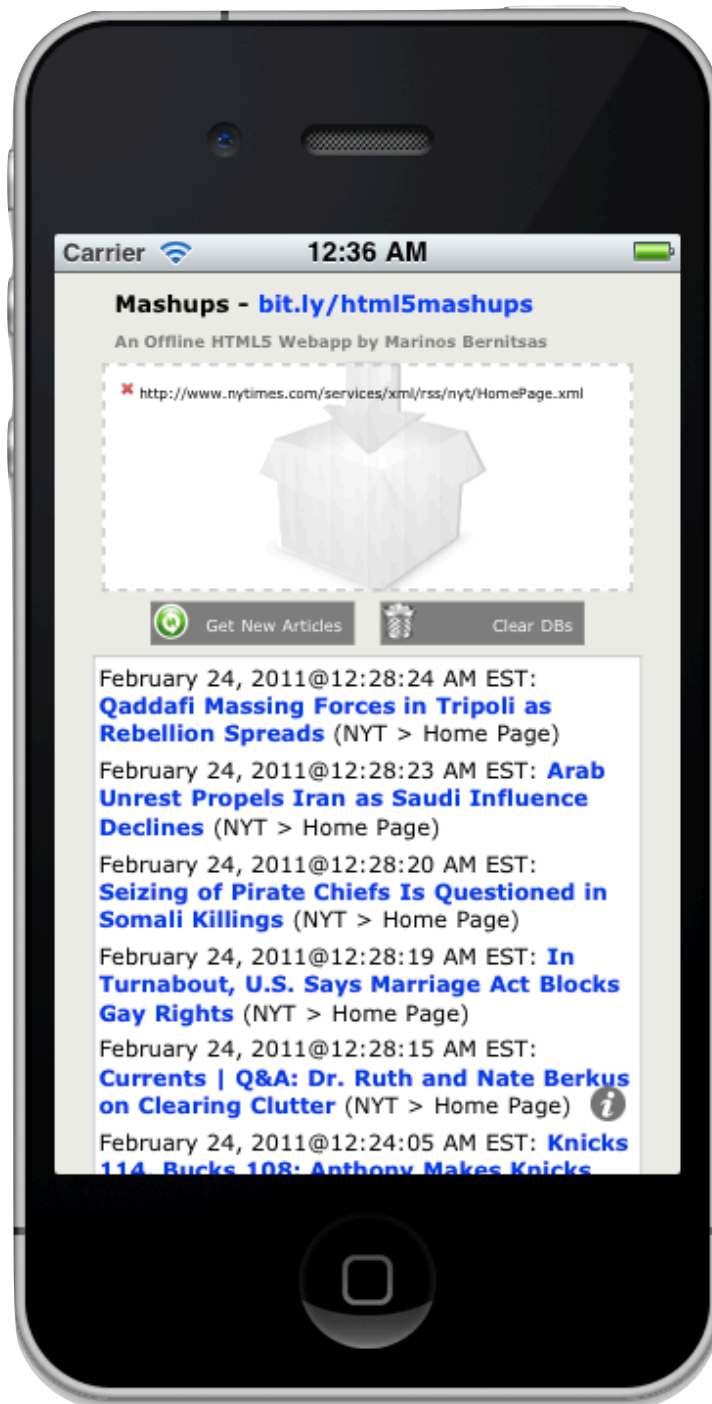

# HTML5

- Just ONE .html file
- Everything is done dynamically
- Asynchronous event-driven
- Drag images and text from anywhere
- Cached Content
- Web SQL
  - Feeds Database
  - Headlines Database
- Sorted by date in real time
- If a feed is missing, use cached copy!

# Mobile App

- iOS's WebView interface
- Will use latest cache of the headlines when signal is disrupted
- Will refresh the headlines when back online

# Questions?
